Standing Figure Reindeer

Instructions No. 1650

Difficulty: Beginner

Working time: 30 Minutes

Enjoy crafting with felt and create your own little Christmas decoration with Deco Snow. The finished decorative figure measures approx. 40 x 27.5 m or 28 x 23.5 cm.

Enough material for a Fir with reindeer

Preparation

The **motif template** consists of Fir and reindeer. Copy both motifs. **Transfer** the Fir twice on the grey Felt, the reindeer on the brown Felt sheet, cut out all motives.

Prepare the **wooden stand** by inserting the wooden stick into the wooden plate, fix the connection with glue.

Hobby fun with Felt

The Fir is now decorated with the **decorative snow liner**. Painting on the snow contours is especially fun. Then glue both pieces of fir felt together at the edges and simply place the so designed felt cover on the wooden stand

The cut out reindeer is glued in front of Fir - your Christmas fir with reindeer is ready. When arranging on the table after you can decorate around the felt figure fir green and Decorative snow

Extra tip

The reindeer are available in two different designs. Choose the reindeer set in your favourite size. You can also make a second reindeer and give it away as a great gift!
