Star-decoration pendant with fabric stiffness

Instructions No. 680

With the help of **fabric stiffener**, you can easily **conjure up stable Christmas tree pendants** from any soft fabric. This tutorial is an example of how to make pendants from fabric with stars or other shapes.

Here's how it works

Cut the fabric into pieces.

Pour the fabric stiff into a container, completely submerge the cut pieces until they are completely soaked with the liquid.

Then wring them out and spread them out smoothly on a surface covered with foil.

Leave to dry overnight.

Make templates for the different stars using the templates.

Transfer the outlines with the line-ex pen to the hardened materials and cut them out.

Cut out the stars with the Pearl-Border the pen and let it dry.

Glue two stars of the same size against each other with hot glue, while placing a loop from Raffia in between.

Decorate with orange slices and buttons.

Fabric stiffener is suitable for many creative ideas. Read about this topic also the idea **Christmas card with fabric-stiff** or the idea candle decoration **with fabric-stiff**.
