Structure images

Instructions No. 2790

Difficulty: Beginner

Working time: 15 Minutes

In our tutorial we show you how to create beautiful graphic 3D images with texture paste on canvases. These great three-dimensional effects and the accompanying light-shadow effects look great.

Both pictures are made with white structure paste. The large picture in the format 30 x 40 cm is designed with coarse structure, the mural in the small format of 24 x 30 cm was modeled with colored structure paste with fine grain.

Here's how to color the texture paste: Add the texture paste to the mixing cup and mix in craft paint to taste. Stir the paste well. Info: for the small stretcher, you will need about 125 g of the texture paste.

Using the palette knife, add the texture paste to the stretcher and smooth it out. Then, while the paste is still wet, use the palette knife to create the designs. If you notice that too much or too little paste has been used, remove or add a little more paste.

Let your work dry for about 24 hours. Then glue the stretcher into the wooden picture frame. Let it dry again for 24 hours in a turned position.

Modeled with rough texture paste

Modeled with fine texture paste

Must Have

Effect spatula

Content: 2 pieces
Length: 7 cm
Width: 6 cm
Material: Metal
