Summer candles

Instructions No. 1624

Difficulty: Beginner

Working time: 20 Minutes

What could be better than sitting **outside on the balcony or terrace** in the light of a beautifully **designed candle.** Make your own candle **simply and quickly** according to your taste!

In our example we have filled small **colored buckets** with **candle sand** . Place the wick **in** the middle and fill the bucket with candle sand in the desired colour. Your candles will burn down slowly and evenly thanks to the candle sand

Now you can decorate the buckets with ribbons, sprinklers, decorative flowers and much more.

We have **labele Markerd** the pink bucket in the **handlettering technique** with the words "LIGHT UP" with a white

Candles in a **maritime look** are also a great eye-catcher. Place the candle wick in the middle of a **glass** and fill it with candle sand. Now the glasses can be decorated In our example we have **wrapped** the glasses with a hemp cord and **decorated** them with **wooden** shavings. The glasses can also be decorated with shells.

A great effect can also be achieved by layering the candle sand in **different colours** on top of each other You can also use a wooden stick to pull the layers of paint into each other.

Must Have

Candle sand, 175 g, 8 wicks, Pastel White

Inhalt: 175 g, Material: Stearin

4,49 €
