Working time: 45 Minutes

Who does not know it: You are about to leave the house and are desperately looking for your key. With these **key rings** your key ring **will** not become a only real personal eye-catcher, but you will also save valuable time while searching, because these key rings catch the eye. Also ideal as an individual gift for family and friends.

Design your personal key ring from different materials!

Leather

Punch a tag or pendant from a piece of **leather** with the Sizzix Big Shot Plus. Transfer your favourite writing onto the leather with a pencil and trace it with the branding pen.

Small symbols like hearts give the pendant a very special charm. Last but not least, pull a **key ring** through the pre-punched hole - and your distinctive key ring is ready!

Extra tip: Instead of punching out a day with the Sizzix Big Shot Plus, simply cut out your desired shape with standard scissors and punch a hole for the key split ring with a hole punch or pliers.
