What is important is the personal and individual look you give your vintage album. There should be no limits to your creativity.

For the big album, a vintage paper sheet measuring 30.5 x 30.5 cm is first stuck onto the cover. Papers for scrapbooking can be found in a large Selection. vintage-style scrapbooking paper you can usually recognize by the rather muted colors and possibly old-fashioned pictures, patterns or symbols such as 19th century bicycles, old watches, newspaper clippings and much more. The Vintage-Paper can be combined wonderfully with each other because of its colouring and at the same time it provides a nice background for your texts and pictures. You can cut the papers to different formats. If you want to use scrapbooking for creative design, you can glue different papers together and then place your pictures on the papers. If you would like to write inscriptions with a nice pen, please remember that Paper must not be too dark or harmonize with your pen.

With the scrapbook in vintage style it is also possible to use vintage embellishments. Baroque frames, Metal accessories like clocks, gears or keys but also Lace ribbon give your **Scrapbook album the classic vintage look.** The embellishments are fixed with paper glue, superglue or hot melt (depending on size and type) on the title of the scrapbook album. You can also use ribbons and accessories like Feathers or stickers wonderfully.

According to your personal taste, additional papers **, 3D stickers, accessories**, possibly together with a personal photo, are stuck on both albums. Especially on the title of the scrapbooking album it makes sense to use many accessories. In the inner part you should take care that the accessories are not too thick and make it difficult to close the album.
