Wreath of marbled eggs

Instructions No. 2969

Difficulty: Beginner

Working time: 2 Hours

At Easter, it is a great pleasure to decorate the house in a springtime style. This **wreath** made from **marbled eggs** is an eye-catcher and can be hung on the front door or as decoration in your own four walls. With simple steps, you can conjure up the great effects on the eggs in your desired colors and with wire and wooden balls you can create a beautiful wreath for the Easter season.

This is how you create the wreath from the eggs:

Protect your workplace with a VBS handicraft mat. Take an old container and fill it with lukewarm water. For each **marbling process**, put a few drops of water **colour for marbling** into the container and use a bamboo skewer to draw a pattern of your choice. Place your **plastic egg** on a bamboo skewer and dip it into the water with a slight twisting motion. Pull it out and put it in the flower arrangement foam. to dry. Repeat this process for the next eggs.

Cut about 2 meters off the binding wire. Double it and twist the ends together. Drill another hole in the eggs. The easiest way to do this is with a cordless screwdriver.

Now thread an egg and 2 wooden balls alternately onto the wire. Twist the ends together.

Tie different **ribbons** to the wreath. With VBS handicraft glue you can **scatter decoration** to the ribbons.
