Zauberhafte Perlenblumen

Instructions No. 204

Difficulty: Advanced

Working time: 20 Minutes

If there are no flowers blooming outside, then you can make your own. These filigree specimens are made of rocaille beads and wire stars and will certainly not wilt.

It's that simple:

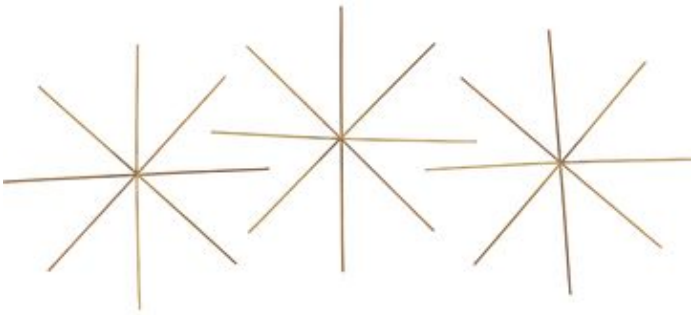

Lay two Pearl Stars on top of each other offset and tie them together with fine wire. Thread about 14 to 16 beads on a star wire, bend the end of the wire to an eyelet.
Put about 14 bix 16 beads on the next star wire as well, thread the end into the eyelet of the first bead wire and connect both together with an eyelet (makes a petal). Remove excess material with a side cutter.

Make petals out of all strands of the bead star except two wires further .

Now bend a wire to the hanging aid: bend a hanging loop with the jewellery pliers. On the remaining wire a thicker Pearl is applied. Bend the wire once around the center of the flower, this is how the center of the flower is formed.

Finally form the petals and bend them evenly towards each other.

Must Have

VBS Wire forms "Star", Ø 10 cm

Content: 3 pieces
Diameter (outside): 10 cm
Thickness: 1 mm
Material: Metal

2,29 €
