Zpagetti-Schultertasche

Instructions No. 469

Difficulty: Advanced

A **self-made Hooked Zpagetti shoulder bag is** a great companion for every occasion and always unique! The Zpagetti Yarn used is 100% recycled.

To make the crocheted Zpagetti bag

With the help of a crochet hook strength 3.0 the pocket bottom is crocheted around. A stitch is crocheted into each hole

In the next step crochet firm stitches in rounds with a crochet hook in strength 12.0. It is important that each round begins with an air stitch. The first fixed stitch is worked into the 2nd stitch of the previous round. The round ends with a warp stitch in the air stitch. For clarification this point can be marked e.g. with a contrasting thread or a coloured paper clip.

Crochet 5 rounds of fixed stitches, then 3 rounds where only is stitched in the back stitch link.

Crochet another 5 rounds now normal crochet, 3 rounds with pricking in the back link, then again 7 rounds normal crochet.

Finish with a round of warp stitches, which are crocheted around the edge. Cut off the closing thread and sew

Thread Zpagetti-Yarn through the holes in the second bottom of the bag, then sew it to the back of the bag as a closing flap. Zpagetti-Yarn is also threaded through the holes of the bag handles, the decorative wooden rings are fixed at both ends, the finished handles are sewn to the bag

For the Bag closure first the upper part of a magnetic closure is fixed in a small piece Felt and glued under the flap. The lower part of the magnetic closure is fixed to the bag as a counterpart.

Tie a tassel from Zpagetti-Yarn and imitation leather tape and sew it under the flap.
